

1. page 2 line 2 - $\dot{W}(t, s)$ to $\dot{W}(t, x)$
2. page 2 last paragraph - minor rewording
3. page 3 second paragraph - which introduces $\rightarrow$ then we may introduce.
4. page 3 - added a definition of the law.
5. page 3 end of paragraph 1 - small grammar edit
6. page 4 th 1.2 - added "for all $t > 0$ ".
7. changed all $\hat{\rho}$ to $\tilde{\rho}$ since widehat is used for the Fourier transform.
8. page 5 (organization paragraph) - some grammar edits.
9. page 6 - added spherical integration formula since we use it a lot.
10. Prop 2.6 statement - added that the constants depend on α and d
11. prop 2.6 upper proof - $\int_{\mathbb{R}} \rightarrow \int_0^{\infty}$.
12. prop 2.6 lower bound - added some justification for the $r > 2$ case.

Need to still change

1. page 3 2nd paragraph - We should cite the green book instead of the paper since we follow the green book more so.
2. complete item 2 on page 5
